

# NEHA DATHA PRADEEP

Product Designer | UX Research | Design Systems | UI/UX

nehadathapradeep.vercel.app | nehadathapradeep@gmail.com | +91 97781 76611

## Professional Overview

Product-focused designer with 1.5+ years of experience designing and shipping user-centric digital products across healthcare, events, and EdTech domains. Experienced in owning the end-to-end design lifecycle—from research and problem definition to high-fidelity UI and developer handoff—within fast-paced startup environments.

## Professional Experience

### Lead UI/UX Designer

*Tresvance (Startup) — 2024–Present*

- Lead end-to-end UI/UX design for multiple client websites and production web applications across industries
- Translate business requirements and ambiguous problem statements into clear user journeys and interaction flows
- Own design systems and reusable UI components to ensure consistency and scalability across projects
- Collaborate closely with developers, founders, and clients to balance user needs, technical constraints, and business goals

### Contract UI/UX Designer

*Xacara Software Services — 2024*

- Designed the complete product experience for **Zero0**, a consumer-facing events and service hosting platform
- Conducted UX research, requirement analysis, and iterative design to define core product flows
- Delivered production-ready designs and supported developers during implementation and iteration

### UI Designer Intern

*Aviv Digital*

- Translated UI designs into functional React-based web interfaces
- Worked within agile teams, collaborating with designers and developers on real-world projects

## Key Projects

### BioHippo — Bio-Research Platform

Client-facing design project for a bio-research startup. Designed a text-heavy, information-rich website with strong content hierarchy and integrated 3D elements to enhance engagement while maintaining clarity and readability.

### UI/UX for Software Training Institute Website

Lead Designer & UX Researcher for a public-facing education website serving students and parents. Focused on clear navigation, accessibility, and a conversion-oriented layout to improve course discovery, trust, and enrollment flow.

### Zero0 — Events Platform

Designed a scalable consumer-facing events platform, focusing on event discovery, management flows, and usability. Balanced user experience decisions with business and operational requirements in a startup context.

## Skills & Tools

**Design:** UX Research, User Flows, Wireframing, Prototyping, Design Systems, Usability Testing, Interaction Design, Information Architecture, Visual Design

**Product:** Product Thinking, Problem Definition, Feature Scoping, Agile Collaboration, Stakeholder Communication, Requirements Analysis, Design Handoff

**Tools:** Figma, FigJam, Adobe Creative Cloud (Illustrator, Photoshop, InDesign), HTML, CSS

**Languages:** English, Hindi, Malayalam

## Education

### Advanced Diploma in UI/UX Design

*Aviv Digital — 2024–2025*

### B.Tech Computer Science

*Mahaguru Institute of Technology — 2020–2024*
